CARACTERÍSTICAS
FEATURES

Flexión de la tira LED en relación a la emisión de la luz
Bending of the LED strip in relation to light emission

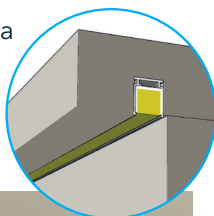

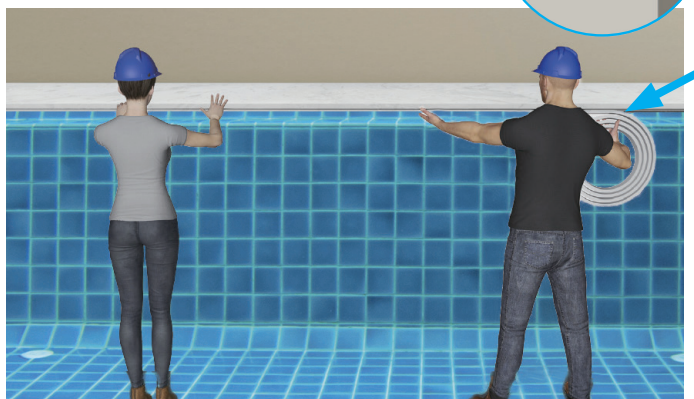

Resistencia máxima soportada por la tira LED
Maximum resistance supported by the LED strip

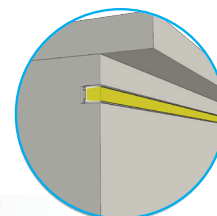

INSTALACIÓN
INSTALLATION

Instalar la tira LED siempre entre dos personas.
Always install the LED strip with two people.

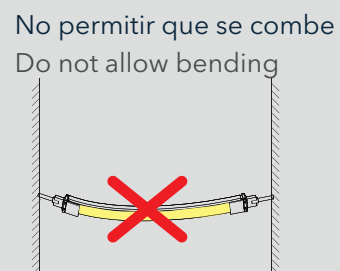

Instalación bajo la coronación de la piscina
Installation under the pool coping

Instalación en la pared de la piscina
Installation on the pool wall

MATERIAL PARA LA INSTALACIÓN DEL PERFIL MATERIAL FOR INSTALLING THE PROFILE

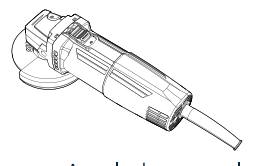

Tornillo
Screw

Destornillador
Screwdriver

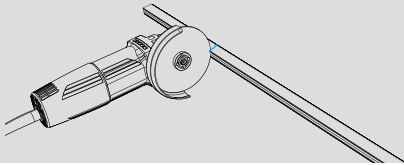

Destornillador eléctrico
Electric Screwdriver

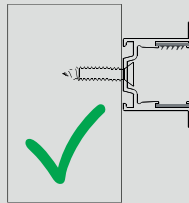

Amoladora angular
Angle grinder

COLOCACIÓN DEL PERFIL PROFILE PLACEMENT

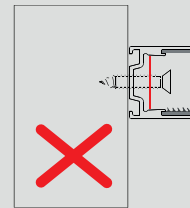

Si es preciso ajustar la longitud del perfil de aluminio, cortar con la amoladora angular. **Asegurarse de que el corte queda liso y recto, sin bordes cortantes.**
If the length of the aluminium profile needs to be adjusted, cut it with an angle grinder. **Ensure that the cut is smooth and straight, with no sharp edges.**

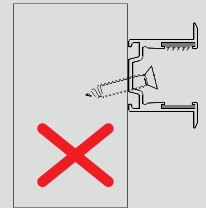

Atornillar recto. La cabeza del tornillo debe quedar a nivel o por debajo de la base de aluminio. Screw straight in. The screw head should be flush with or below the aluminium base.

La cabeza del tornillo **no debe sobresalir** de la base de aluminio. The screw head must not protrude from the aluminium base.

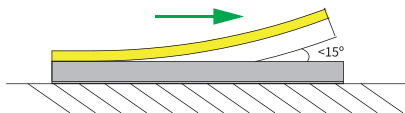

El tornillo no debe quedar torcido. The screw must not be twisted.

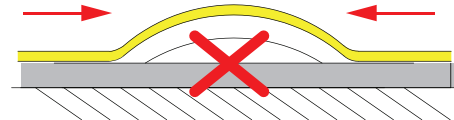

COLOCACIÓN TIRA LED LED STRIP INSTALLATION

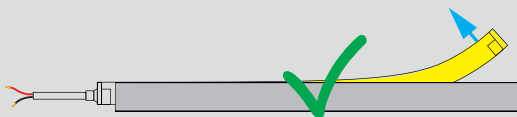

Introducir la tira LED dentro del perfil en una única dirección.
Insert the LED strip into the profile in a single direction.

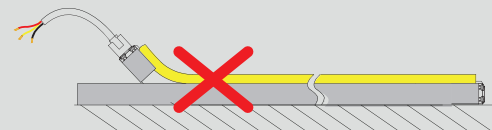

No introducir la tira LED dentro del perfil desde dos direcciones diferentes, presionando el centro.
Do not insert the LED strip into the profile from two different directions, pressing down on the centre.

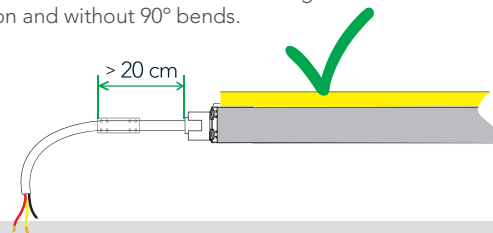

Para sacar la tira LED del perfil tirar suavemente del extremo en dirección hacia arriba.
To remove the LED strip from the profile, gently pull the end upwards.

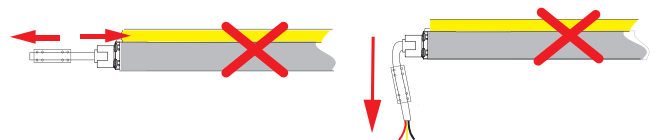

No estirar con violencia de la tira LED ni retirarla tirando del cable de alimentación.
Do not pull violently on the LED strip or remove it by pulling on the power cable..

Los primeros 20 cm de cable deben ser un tramo recto libre de tensión excesiva y sin codos a 90°.
The first 20 cm of cable should be a straight section free of excessive tension and without 90° bends.

No someter el cable a una fuerza excesiva. No estirar demasiado el cable ni forzar su doblado.
Do not subject the cable to excessive force. Do not overstretch the cable or force it to bend.

Realizar las conexiones utilizando una caja de conexiones hermética y a prueba de agua.
Make the connections using a watertight and waterproof connection box.

Se suministra con un cable de 5 metros de longitud.
Supplied with a 5-metre cable.

Tira alimentada por 1 lado, tubo corrugado de Ø 25 mm.
Strip fed from 1 side, corrugated tube Ø 25 mm.
